

2015 Polyurethane Innovation Award Entry Form

Company Name: _____

Contact Name: _____

Address: _____

City: _____ State: _____ Zip: _____ Country: _____

Product/Technology Name:

Date Innovation (which is expressly defined as the reaction of an isocyanate with a polyol) became commercially available:

Abstract:

Please attach an abstract on the product, technology or program; approximately 50 words in length.

Description:

Please attach a technical description of the Innovation in polyurethane chemistry, which is expressly defined as the reaction of an isocyanate with a polyol, approximately 500 words in length, including information about the uniqueness of the innovation, the long-term viability and impact, and the benefits to the industry and marketplace.

Eligibility

All entries for the 2015 Award are required to represent new innovations that had not been previously submitted for the Innovation Award and had not been available for commercial sales longer than 15 months prior to June 19, 2015 (not introduced to market before March 19, 2014).

Entries pertaining to a polyurethane product or polyurethane manufacture were required to relate to polyurethane chemistry, which is expressly defined as the reaction of an isocyanate with a polyol. Innovations in polyurethane chemistry could include finished products, initiatives, training or education programs, or processes or processing equipment.

Selection of Finalists

A panel of judges, comprised of experts representing technical disciplines and the polyurethane supply chain, will evaluate all eligible submissions. Judges will evaluate and score all entries based on impact on the polyurethanes industry, uniqueness of the innovation, quality of the science and societal impact. The three submissions with the highest scores will be selected as finalists for the 2015 Polyurethane Innovation Award.

Voting Process

Voting for the Polyurethane Innovation Award will take place during the Opening Session of the 2015 Polyurethanes Technical Conference on Monday, October 5. Each individual conference registrant attending the Opening Session may cast one vote for one finalist. The finalist with the most votes will receive an additional 20 points to be added to the judges' score. The innovation with the highest total score will be deemed the winner and announced on Wednesday, October 7, 2015, during the Closing Session of the 2015 Polyurethanes Technical Conference.
